Amendment for Dental Insurance

When the office submits insurance claims for our patients, most companies will send payment and correspondence directly back to our office. CareFirst, Blue Cross Blue Shield and Delta Dental will not even speak with our office. Our efforts to get our patients the benefits they deserve are made more difficult by their policies.

Therefore, since these compies choose to only send correspondence and payments directly to the patient, we discuss all financial arrangements ahead of any treatment with the patient and set up all financial arrangements with a clear understanding prior to any treatment or incurring any expenses. This prevents any miscommunication between our office and the patient regarding insurance or payment.

This insurance company will send the explanation of benefits as well as a check for their coverage of services rendered to the patient. Sometimes claims will be denied and will require additional documentation and radiographs. Since our office does not receive any correspondence from these companies, the patient is responsible for alerting the office as soon as soon as possible, especially since claims are time sensitive.

Initials: _____

Thank you for taking the time to read and understand our insurance amendment. Our practice is committed to providing the very finest in dental treatment for you. Please let us know if you have any questions at any time.

I understand the insurance amendment and agree to adhere to my obligations according to it.
